

The Office of International Academic Affairs invites YOU to join COLMAN International and SPEND A SEMESTER ABROAD!

Study abroad. A life changing experience.

Studying abroad is an excellent opportunity for students to enhance their language skills, learn about different cultures, and develop independence. In today's globalized world, studying abroad can significantly enhance students' employability after their studies, given the intercultural competencies, problem-solving, creativity, and English fluency that are top skills sought by employers.

The student exchange program is an opportunity for students to experience studying at one of the universities and colleges around the world that are COLMAN partners while living in a different country.

We strongly encourage you to take advantage of the study abroad opportunities that COLMAN offers, for the benefit of both your personal growth and career development
